WASHBURN HOUSE

Distinctive two-story townhomes with 18’5” ceilings that maximize light, volume, and spatial presence. Enter at street level into an open main floor where kitchen, dining, and living areas flow together naturally within a dramatic vertical setting. Above, a private mezzanine level houses the primary suite, creating a clear separation between public and private spaces. The two-story layout adds architectural depth while remaining highly livable, with walk-up access placing the neighborhood just beyond your front door.
